

End Semester Examination, May 2022
B.A./B.Sc. (Hons.) (Applied Psychology) – Second Semester
FUNDAMENTALS OF SOCIAL PSYCHOLOGY (BAP-DS-201)

Time: 3 hrs.

Max Marks: **100**

No. of pages: **1**

Note: Attempt **FIVE** questions in all; **Q.1** is **compulsory**. Attempt any **TWO** questions from **PART-A** and **TWO** questions from **PART-B**. Marks are indicated against each question.

Q.1 Answer in brief:

- a) Write a short note on 'nature of social psychology'.
- b) Explain the concept of social loafing and how to reduce it.
- c) Differentiate between the 'equilibrium and disequilibrium'.
- d) Discuss the basic factors that influence attitude formation.
- e) Explain 'intergroup conflicts'.
- f) Differentiate the Piaget's and Vygotsky's theory of cognition.
- g) Define 'schema'.
- h) Write a short note on 'social facilitation'.

2½×8

PART-A

- Q.2 Explain the concept of person perception and highlight the important features. Discuss the basic biases involved in person perception. [CO2] [L4] **20**
- Q.3 Define 'social psychology'. Write a detailed note on 'importance of social psychology in context to India'. [CO1] [L3] **20**
- Q.4 Discuss the basic characteristics of prosocial behavior and its determinants/factors. [CO3] [L5] **20**

PART-B

- Q.5 'Bullying a product of aggression' explain it with examples. Elucidate the basic management intervention/strategies of aggression. [CO3] [L5] **20**
- Q.6 Explain the nature of groups. Discuss the role prejudice, stereotype and discrimination in group formation. [CO4] [L4] **20**
- Q.7 Define 'attitude'. Critically evaluate the various theories of attitude. [CO3] [L5] **20**

End Semester Examination, May 2022
B.A./B.Sc. (Hons.) (Applied Psychology) – Second Semester
INTRODUCTION TO RESEARCH METHODOLOGY (BAP-DS-203)

Time: 3 hrs.

Max Marks: **100**

No. of pages: **1**

Note: Attempt **FIVE** questions in all; **Q.1 is compulsory**. Attempt any **TWO** questions from **PART-A** and **TWO** questions from **PART-B**. Marks are indicated against each question.

Q.1 Answer the following:

- a) Explain the benefits of conducting a research.
- b) Define 'variable'. Explain the different types of variables.
- c) Explain Static group research design with the help of relevant example.
- d) Define 'Sampling frame'.
- e) Explain participant observation with the help of an example.
- f) Explain 'non-parametric statistics'.
- g) Explain interval scale of measurement with the help of an example.
- h) Differentiate between experimental and control group.
- i) Elaborate on the differences between population and sample.
- j) Differentiate between primary and secondary data.

2×10

PART-A

Q.2 As a researcher you wish to explore whether stress levels influence academic performance of students. Elaborate on the various steps and their description that would be taken by you to successfully carry out the research. [CO1] [L5] **20**

Q.3 "The goal of experimental research design is to provide more definitive conclusions about the causal relationships among the variables in the research hypothesis than is available from correlational designs." Elaborate. [CO2] [L4] **20**

Q.4 Define 'hypothesis'. Throw a light on the nature and types of hypotheses. [CO2] [L4] **20**

PART-B

Q.5 Explain probability sampling in detail. [CO2] [L3] **20**

Q.6 Elaborate on the role of Interview as a tool of data collection in psychological research. [CO3] [L4] **20**

Q.7 "Content analysis is a research tool used to determine the presence of certain words or concepts within texts or sets of texts." Elaborate. [CO4] [L4] **20**

End Semester Examination, May 2022
B.A./B.Sc. (Hons.) (Applied Psychology) – Second Semester
PERSONALITY THEORIES (BAP-DS-204)

Time: 3 hrs.

Max Marks: **100**

No. of pages: **1**

Note: Attempt **FIVE** questions in all; **Q.1 is compulsory**. Attempt any **TWO** questions from **PART-A** and **TWO** questions from **PART-B**. Marks are indicated against each question.

Q.1 Answer the following in brief:

- a) State the biological determinants of personality.
- b) Define neurotic anxiety concept by Karen Horney.
- c) State the stages of Eric Erikson's Personality theory.
- d) State the concept of George Kelly's Personality theory.
- e) Define 'personality'.
- f) How can we measure personality?
- g) Explain denial with an example.
- h) Discuss relevance of defense mechanisms in psychoanalysis.
- i) Define 'existentialism'.
- j) What is the difference between type and trait approach to personality.

2×10

PART-A

Q.2 Explain psychoanalytical school of thought in psychology. [CO1] [L1] **20**

Q.3 Explain Carl Jung's theory of personality. [CO2] [L2] **20**

Q.4 Explain and elaborate OCEAN. [CO2] [L3] **20**

PART-B

Q.5 Draw and explain Maslow's Need Hierarchy theory. [CO3] [L3] **20**

Q.6 Albert Bandura explained the term 'imitation'. Elaborate his theory with relevant points. [CO3] [L3] **20**

Q.7 What are the recent research trends that you have observed in personality as a budding psychologist? Elaborate giving relevant examples from the field. [CO4] [L4] **20**

End Semester Examination, May 2022
B.A./B.Sc. (Economics) – Fifth Semester
BASIC STATISTICAL METHODS (BECO-DC-001)

Time: 3 hrs.

Max Marks: **100**

No. of pages: 2

Note: Attempt **FIVE** questions in all; **Q. 1** is **compulsory**. Attempt any **TWO** questions from **PART A** and **TWO** questions from **PART B**. Marks are indicated against each question.

Q.1 Answer the following questions:

- a) Write the important properties of Normal Distribution?
- b) What are the components of time series?
- c) What do you mean by Probability?
- d) What is the meaning of seasonal fluctuation in a time series data?
- e) What is hypothesis?
- f) What is Analysis of variance?
- g) What is non-parametric test?
- h) Define Random sampling with the help of an example.
- i) What is meant by mutually exclusive event?
- j) Define the characteristics of chi-square test.

2×10

PART-A

Q.2 a) Four coins are tossed simultaneously. What is the probability of getting:

- i) No Head?
- ii) No Tail?
- iii) Two Heads only?

[CO2] [L3] **10**

b) The probability of a defective bulb in a company is 3%, If a customer purchases a packet of 50 bulbs then find the followings:

- i) Mean
- ii) Standard Deviation
- iii) Variance

Q.3 a) The sales of a company in lakhs of rupees for the years 2011-2016 are given below:

Year	2011	2012	2013	2014	2015	2016
Sales (in lakh)	10	13	16	21	24	30

- i) Calculate the trend values by the method of least squares from 20011 to 2016
- ii) What will be the predicted sales for the 2021, assuming that the same rate of changes continues?

b) The sales of a commodity (in tonnes) varied from 2011 to 2021 in the following manner:

Year	2011	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021
Sales (in lakh)	38	40	46	49	51	55	61	63	69	72	80

Fit a trend line by the method of semi-averages.

[CO1] [L4] **10**

Q.4 a) Explain with examples the

- i) Addition Theorem of Probability and
- ii) Dependent and Independent events.

[CO1] [L2] **10**

b) Explain briefly the different methods of measuring trend.

[CO1] [L3] **10**

End Semester Examination, May 2022
B.A. (Hons.) (Economics) — Sixth Semester
MONEY-BANKING AND FINANCE (BECO-DC-003)

Time: 3 hrs.

Max Marks: **100**

No. of pages: **1**

Note: Attempt **FIVE** questions in all; **Q.1** is **compulsory**. Attempt any **TWO** questions from **PART-A** and **TWO** questions from **PART-B**. Marks are indicated against each question.

Q.1 Answer in brief:

- a) Define commodity and fiat money.
- b) What is barter system?
- c) What do you understand by moral hazard?
- d) Differentiate between primary and secondary market.
- e) Define 'adverse selection'.
- f) What is deposit multiplier?
- g) What is money market?
- h) Define 'yield curve'.
- i) What is time value of money?
- j) What is the double coincidence of wants?

[CO1,2,3,4][L2,3] **2×10**

PART-A

- Q.2 a) Explain the historical development of money from gold coins to the present system of paper currency. [CO1] [L2] **10**
b) What are the different functions of money? How are they related to 'motives' to hold Money? [CO1] [L2] **10**
- Q.3 a) Explain all three types of monetary aggregates in Indian market. [CO1] [L2] **10**
b) Highlight the major determinants of money supply in detail. [CO1] [L3] **10**
- Q.4 a) Distinguish between the functions of SEBI, BSE and NSE? [CO2] [L3] **10**
b) Discuss the role of money market in India. How does it differ from capital market? [CO2] [L3] **10**

PART-B

- Q.5 a) What is a yield curve and what does it represent? [CO3] [L2] **10**
b) Discuss uncertainty and risk in Insurance. [CO3] [L2] **10**
- Q.6 a) Explain the functions of the RBI. What are main tools that are used in monetary policy? [CO4] [L3] **10**
b) How can monetary tools be used to combat unemployment and inflation? [CO4] [L3] **10**
- Q.7 a) What are the main functions of commercial banks?
b) How does commercial banks create credit?
c) The central bank acts as lender of last resort. How?
d) Define open market operation. [CO3,4] [L2, 3] **5×4**

End Semester Examination, May 2022
B.A. (Hons.) (Economics) – Fourth Semester
BEHAVIOURAL ECONOMICS (BECO-DC-006)

Time: 3 hrs.

Max Marks: **100**

No. of pages: 2

Note: Attempt **FIVE** questions in all; **Q.1 is compulsory**. Attempt any **TWO** questions from **PART-A** and **TWO** questions from **PART-B**. Marks are indicated against each question.

Q.1 Answer in brief:

a) Is behavioural economics:

- i) Positive.
- ii) Normative.
- iii) Both.

Explain your answer.

b) Explain the concept of bounded rationality using examples.

c) What is Snipping behaviour in Auctions?

d) A person who enrolls in a masters program is his discount factor low or high? Explain.

e) After watching a movie, you might insist that the end was quite obvious and you knew it beforehand, explain the bias being referred here.

f) Explain how behavioral economics explains the 2007-08 global financial crisis.

g) Which part of the brain is linked to memory and movement?

h) A decision taken on 'What comes to mind first', is related to which heuristics?

i) Gains are more valued when segregated, explain using suitable examples.

j) 'Take-it-or-leave-it offer' relates to which kind of games? Explain the relevant game using an example.

[CO1] [L2] **2×10**

PART-A

Q.2 a) Explain how behavioural insights may be useful for understanding economic decision making? **10**

b) Explain briefly any THREE of the following taking suitable examples:

- i) ECON vs. HUMAN
- ii) Misbehaving
- iii) Sunk cost fallacy
- iv) Risk Seeking vs. Risk Neutral

[CO1] [L2, 3] **10**

Q.3 a) 'We are risk-averse when we have something to gain, but risk-seeking when we have something to lose' Explain Prospect theory using a suitable diagram? [CO2] [L3, 4] **10**

b) Nudge theory is a highly innovative, effective model for change-management. Explain the nudge theory by taking suitable examples. [CO2] [L5] **10**

Q.4 a) Explain the concept of backward induction. In the diagram below, Player I is an internet service provider and player II a potential customer. The provider decides between two levels of quality of service: High or Low. The buyer decides between two actions: to buy or not to buy. What will the optimal strategy of player I using the backward induction approach?

COMMUNICATION AND WRITING SKILLS FOR ECONOMIST
(BECO-DS-201)

Time: 3 hrs.

Max Marks: **100**

No. of pages: 2

Note: Attempt **FIVE** questions in all; **Q.1** is **compulsory**. Attempt any **TWO** questions from **PART-A** and **TWO** questions from **PART-B**. Marks are indicated against each question.

Q.1 Choose the correct option:

- a) Environment barriers are the same as _____ noise.
i) Physiological ii) Psychological
iii) Physical iv) Sociological [CO1] [L1]
- b) _____ Communication includes tone of voice body language, facial expressions etc.
i) Non-verbal ii) Verbal
iii) Letter iv) Notice [CO1] [L2]
- c) Pick out the correct and nearest meaning/ synonym of the word 'VINDICTIVE'
i) Revengeful ii) Triumphant
iii) Strategic iv) Demonstrative [CO2] [L2]
- d) Choose the most suitable antonym of the given word 'NEGLIGENCE'
i) Diligence ii) Punctuality
iii) Honesty iv) Integrity [CO2] [L2]
- e) _____ describes all forms of human communication that are not verbal.
i) Prosody ii) Vocalic
iii) Haptics iv) Para language [CO2] [L2]
- f) A _____ connects the sender to the receiver.
i) Channel ii) Noise
iii) Communication iv) Feedback [CO2] [L2]
- g) The _____ in the usage of words may be a serious barrier to effective communication.
i) Disturbance ii) Discrimination
iii) Disorder iv) Distortion [CO2] [L2]
- h) Give the synonym of the word 'Liberate'
i) Imprison ii) Enclose
iii) Emancipate iv) Conceal [CO2] [L2]
- i) Give the antonym of the word 'Confess'
i) Deny ii) Refuse
iii) Contend iv) Contest [CO2] [L2]
- j) A person who doesn't believe in the existence of God is known as:
i) Theist ii) Atheist
iii) Priest iv) Popper [CO2] [L2] **2×10**

PART-A

Q.2 What is the impact of technology on communication? List out and discuss some new concepts/developments which are of significance to the communicator. [CO3] [L2] **20**

End Semester Examination, May 2022
B.A. (Hons.) Economics — Second Semester
INTERMEDIATE MICROECONOMICS (BECO-DS-202)

Time: 3 hrs.

Max Marks: **100**

No. of pages: **1**

Note: Attempt **FIVE** questions in all; **Q.1 is compulsory**. Attempt any **TWO** questions from **PART-A** and **TWO** questions from **PART-B**. Marks are indicated against each question.

Q.1 Answer in brief:

- a) What is meant by the term market?
- b) Enumerate the various forms of market structure.
- c) What is a perfect competition in economics?
- d) What is monopoly?
- e) Explain the meaning of Barometric price leadership.
- f) Categorize the following examples for various kinds of market structures.
 - i) Air India
 - ii) Facebook
 - iii) Burger King
 - iv) Market for vegetables
- g) What is the equilibrium output that a firm reaches as per the Cournot oligopoly model?
- h) Why are prices rigid as per kinked demand curve theory?
- i) How is Bertrand model different from Cournot oligopoly model?
- j) What are Cartels? Explain using a real life example. [CO2] [L2] **2×10**

PART-A

- Q.2 a) What is the marginal revenue curve for a competitive firm and how does it differ from that of a monopolist? [CO1] [L2, 3] **10**
b) What is the relationship between TR, AR and MR under perfect competition? **10**
- Q.3 a) Your company operates in a perfectly competitive market. You have been told that advertising can help you increase your sales in the short run. Would you create an aggressive advertising campaign for your product? **10**
b) Explain diagrammatically how price and output are determined under perfect competition. [CO2] [L3, 4] **10**
- Q.4 a) What is the price discrimination? Under what necessary conditions, can price discrimination be practiced? Is price discrimination economically desirable? **10**
b) What are features of monopoly market? Describe short-run equilibrium under monopoly. [CO2] [L4, 5] **10**

PART-B

- Q.5 a) How do monopolistic firms practice price differentiation? Explain using suitable examples. [CO3] [L3, 4] **10**
b) Explain diagrammatically the long run equilibrium under monopolistic competition. **10**
- Q.6 a) Why as per Chamberlin's model firms recognize their interdependence and are able to make higher profits? Explain using suitable diagram. **10**
b) Why are prices sticky? Give examples and explain using a suitable diagram the kinked demand curve theory. [CO3] [L3, 5] **10**

End Semester Examination, May 2022
B.A. (Hons) Economics – Second Semester
INTERMEDIATE MACROECONOMICS (BECO-DS-203)

Time: 3 hrs.

Max Marks: **100**

No. of pages: 1

Note: Attempt **FIVE** questions in all; **Q.1 is compulsory**. Attempt any **TWO** questions from **PART-A** and **TWO** questions from **PART-B**. Marks are indicated against each question.

Q.1 Answer the following questions briefly:

- a) Define 'MPC and MPS'.
- b) What is expansionary fiscal policy?
- c) What do you understand by liquidity trap?
- d) Explain the speculative demand for money.
- e) Define 'Say's law'.
- f) If the value of MPC is 0.75, the value of the multiplier is _____.
- g) If the consumption function is $C = 100 + 0.8y$, then the corresponding savings function is _____.
- h) Differentiate between 'nominal' and 'real' variables.
- i) Differentiate between 'stock' and 'flow' variables.
- j) What are sticky wages?

2x10

PART-A

- Q.2 a) Explain the Cambridge quantity theory of money? How is it different from Fisher's version of it? [CO-1] [L-2] **10**
b) Explain the equilibrium in the Loanable funds market. [CO-1] [L-2] **10**

- Q.3 a) Explain what happens to consumption, investment and interest rate when government increases taxes. [CO-1] [L-2] **10**
b) What do you understand by psychological law of consumption? Derive Keynesian consumption function. [CO-1] [L-2] **10**

Q.4 Consider the economy as:

$$Y = C + I = G$$

$$Y = 8000$$

$$G = 2500$$

$$T = 2000$$

$$C = 1000 + \frac{2}{3}(Y - T)$$

$$I = 1200 - 100r$$

- a) Compute private savings.
- b) Find equilibrium interest rate.
- c) Suppose government expenditure declines by 500. Compute private saving.
- d) Find new equilibrium interest rate. [CO-2] [L-4] **5x4**

PART-B

- Q.5 a) Draw a diagram with aggregate demand, short-run aggregate supply, and long-run aggregate supply. Label the axes and curves properly. [CO-3] [L-2] **10**
b) Discuss the factors effecting aggregate supply curve. [CO-3] [L-2] **10**

- Q.6 a) Derive the saving function from the consumption and income function, both diagrammatically and mathematically. [CO- 4] [L-4] **10**
b) In a two sector economy, the savings function is given as and the level of investment is fixed at ₹100 crores

End Semester Examination, May 2022
B.A. (Economics) – Second Semester
MATHEMATICS FOR ECONOMICS (BECO-DS-204)

Time: 3 hrs.

Max Marks: **100**

No. of pages: 2

Note: Attempt **FIVE** questions in all; **Q.1 is compulsory**. Attempt any **TWO** questions from **PART-A** and **TWO** questions from **PART-B**. Marks are indicated against each question.

- Q.1 Answer the following questions briefly:
- a) What is an identity matrix and what are its properties?
 - b) Suppose $A \cdot B$ is a null matrix. Is A or B (or both) null matrix? Give an example.
 - c) What is a non-singular matrix and why is it needed to solve a system of linear equation?
 - d) Is inverse matrix always unique? Show.
 - e) What is the difference between local and global maximum (or minimum) points?
 - f) If $TC = 0.5q^3 - 4q^2 + 10q + 20$, what is MC , AC and FC .
 - g) If a firm faces the marginal cost function $MC = 50 - 25q + 1.5q^2$, what would be the increase in total cost if output increases from 10 to 20?
 - h) Are cross partial derivatives always equal to each other? Give an example.
 - i) What is the stability condition in the Cobweb model?
 - j) A country's population is currently 40 million and is growing continuously at an annual rate of 1.5%. What will be the population be in 20 years? [CO1][L2] **2x10**

PART-A

- Q.2 a) Use inverse matrix to solve for x , y and z , given:
- $$\begin{aligned} 5x + 2y - 3z &= 16 \\ 2x - 3y + 5z &= 2 \\ 4x + 5y - 6z &= 7 \end{aligned}$$
- [CO2][L3] **10**
- b) Derive the Government expenditure multiplier for IS-LM closed economy model using matrix algebra. [CO2][L3] **10**
- Q.3 a) Suppose the demand function is $q = 50 - 0.25p$, and the supply function is $q = 3p - 5$. The government currently imposes a per-unit tax of ₹2. If this tax is slightly decreased will the tax yield rise or fall? CO2, L3] **6**
- b) Show the relation between AR and MR mathematically. CO2, L3] **7**
- c) Show the properties of transpose using two 2×2 matrices. [CO2, L3] **7**
- Q.4 a) Derive reduced form equations for equilibrium price and output in terms of per unit sales tax t , lump sum tax T , and percentage profits tax c for: $p = 400 - 3q$ and $TC = 10 + 0.2q^2$. [CO1, L4] **10**
- b) How the Inventory control problem finds the optimum order size to minimize ordering and storage costs? [CO1, L4] **10**

PART-B

- Q.5 a) Given the non-linear demand schedule $p = 500 - 10q$, use integrals to find:
- i) Total revenue when q is 100;
 - ii) The change in total revenue when q increases from 100 to 400;

MICRONOMICS EXTENSIONS (BECO-DS-301)

Time: 3 hrs.

Max Marks: **100**

No. of pages: **1**

Note: Attempt **FIVE** questions in all; **Q. 1** is **compulsory**. Attempt any **TWO** questions from **PART A** and **TWO** questions from **PART B**. Marks are indicated against each question.

Q.1 Answer the following questions.

- a) Distinguish between the net demand and gross demand.
- b) Explain the monotonic preferences.
- c) Define inferior and giffen good.
- d) What is the difference between ordinal and marginal utility?
- e) Define the indirect utility function.
- f) Define WARP and SARP.
- g) Define negative externality with example.
- h) Explain Moral Hazard.
- i) What is MRS?
- j) What is adverse selection?

[CO1] [L2] **2×10**

PART-A

- Q.2 a) Explain the point of bliss, with the help of suitable example and diagram.
b) Explain the concept of nash equilibrium using prisoner's dilemma. [CO1] [L2] **10×2**
- Q.3 a) Explain Hall and hitch principle of full cost pricing.
b) Explain Baumol's model of sales revenue maximization. [CO1] [L2] **10×2**
- Q.4 a) Explain the first order derivative of the maximum utility function.
b) Assume that given a consumer's utility function and price for X = hamburgers and French fries, the optimal quantities of burgers and fries are such that $X=2Y$. If the consumer's income constraint is ₹10, $P_X = ₹2$, $P_Y = ₹1$, what is the utility maximizing consumption level of X and Y? [CO2] [L2] **10×2**

PART-B

- Q.5 a) Suppose that there are two roommates A and B. Both of them like money, but that A likes to smoke and B likes clean air. Depict their consumption possibilities in an Edgeworth box.
b) Explain the difference between General and Walrasian equilibrium. [CO3] [L3] **10×2**
- Q.6 a) Explain Grant's Utility Possibility Frontier and point of bliss.
b) Explain the first and second welfare theorem. [CO4] [L4] **10×2**
- Q.7 a) What are externalities? Explain using examples. How do externalities lead to market failure?
b) i) A risk averse individual is offered a choice between gamble that pays ₹2000 with 25% probability of 25% and ₹200 with probability of 75% or a guaranteed payment of ₹750. What would she choose?

ECONOMIC GROWTH AND DEVELOPMENT (BECO-DS-302)

Time: 3 hrs.

Max Marks: **100**

No. of pages: **1**

Note: Attempt **FIVE** questions in all; **Q. 1** is **compulsory**. Attempt any **TWO** questions from **PART A** and **TWO** questions from **PART B**. Marks are indicated against each question.

Q.1 Write short notes on the following:

- a) With the help of a diagram, explain the steady state level of capital per worker under Solow model with depreciation and technological progress. Label the axes and curves properly.
- b) Explain what relationship is depicted by Philips Curve.
- c) Explain the term shocks in real business cycle model.
- d) Analyze the term Recession.
- e) Define Perfect-Foresight Model.
- f) Difference between Economic growth and Economic Development.
- g) Differentiate between balanced and unbalanced growth.
- h) Explain the merits of the theory of unbalanced growth.
- i) Define golden rule level of capital under Solow Model.
- j) Define knife-edge problem.

2×10

PART-A

- Q.2 Evaluate the role of government in facilitating economic growth and development. [CO2] [L4] **20**
- Q.3 Explain the knife edge equilibrium of Harrod-Domar growth model. How is labor force growth and technological progress presented in the Harrod-Domar model? [CO2] [L2] **20**
- Q.4 Critically evaluate the concept of 'Markets in Solow-Swan model. How households and firms interact in the model? [CO3] [L4] **20**

PART-B

- Q.5 Explain the steady state in Solow growth model with illustration. Explain what impact increases in savings and population growth will have on growth? [CO3] [L3] **20**
- Q.6 Analyze what do you understand by business cycles? What are the four cycles of business cycles? Elaborate the schools of economic thought from Classical and Keynesian to New Classical and New Keynesian. [CO4] [L6] **20**
- Q.7 Differentiate between fixed and flexible exchange rate? What happens to the money supply and exchange rate when the world interest rate increases in the Mundell-Fleming model? [CO3] [L5] **20**

Q.1 Answer the following:

- Distinguish between direct taxes and indirect taxes.
 - Explain the concept of equity in taxation.
 - What are the limitations of Coase Theorem?
 - Distinguish between revenue expenditure and capital expenditure.
 - What are the qualities of a good tax system?
 - What are the parts of Indian budget?
 - What is major head and minor head in budget?
 - Is there state Finance Commission in India?
 - How are local public goods different from national and international public goods?
 - Why was NITI Aayog formed?
- [CO-1,2,3,4][L2,3] **2×10**

PART-A

- Q.2 a) With the help of an example explain the concept of a free rider problem?
b) Provide two examples of goods/services that are classified as private goods/services even though they are provided by a federal government. [CO1] [L3, 4] **10×2**
- Q.3 a) Diagrammatically explain the economic impact of negative externality. [CO2] [L4] **10**
b) How different types of externalities can cause market failure? Describe the following events whether it is positive or negative, and whether it is a consumption or production externality.
i) Smoking by individuals;
ii) Toxic waste production by firms;
iii) Research and development by a high -tech firm
iv) Individual vaccination against communicable illness. [CO2] [L5] **10**
- Q.4 a) Comment on the theory of Ability to Pay. Which is the best index of Ability to Pay? [CO2] [L3] **10**
b) Distinguish between impact and incidence of taxation. [CO2] [L2] **5**
c) What are the main principles of taxation? [CO2] [L2] **5**

PART-B

- Q.5 The direct money burden of tax imposed on any object is divided between the buyers and sellers in proportion of the elasticity of supply of the object taxed to the elasticity of demand for it, Elucidate the statement. [CO3] [L5] **20**
- Q.6 a) Explain Peacock-Wiseman hypothesis of public expenditure. [CO4] [L3] **10**
b) Elucidate the broad sources of tax and non-tax revenues for the Central Government. [CO4] [L3] **10**

End Semester Examination, May 2022
B.A. (Hons.) (Economics) – Fourth Semester
INTERNATIONAL ECONOMICS (BECO-DS-402)

Time: 3 hrs.

Max Marks: **100**

No. of pages: **1**

Note: Attempt **FIVE** questions in all; **Q.1 is compulsory**. Attempt any **TWO** questions from **PART-A** and **TWO** questions from **PART-B**. Marks are indicated against each question.

Q.1 Answer in brief:

- a) Differentiate between balance of payment and balance of trade. [CO1, L4]
- b) State the advantages of fixed exchange rate. [CO3, L2]
- c) Explain the causes of currency appreciation. [CO2, L3]
- d) Analyze the role UNCTAD in international trade. [CO4, L4]
- e) Explain the relevance factor price equalization model of international trade. [CO3, L3]
- f) What is the difference between tariff and quotas? [CO1, L1]
- g) What are the functions of foreign exchange markets? [CO2, L2]
- h) Why are exchange rates important to the economy? [CO3, L5]
- i) State the difference between spot and forward exchange rate. [CO4, L6]
- j) What happens when current account is greater than zero? How does it affect the national income of the open economy? [CO3, L6] **2×10**

PART-A

- Q.2 What do you understand by Balance of Payment Disequilibrium? State some measures to correct this disequilibrium. [CO1] [L3] **20**
- Q.3 Explain the Comparative Advantage Theory of International Trade. Also the main points as to how this theory can benefit the nations? [CO2] [L2] **20**
- Q.4 a) "Dumping can push producers and manufactures in the foreign country out of business" Analyze the above statement and comment whether it is true or false? [CO4] [L5] **10**
b) Explain the various types of Internal Economies of scale and how they can create advantage for the organization. [CO3] [L4] **10**

PART-B

- Q.5 State the Monetary and Fiscal Policy under Fixed Exchange Rate. Illustrate the impact of foreign exchange intervention on Monetary and Fiscal Policy with graphical presentation. [CO3] [L5] **20**
- Q.6 a) Explain J-curve effect with example. [CO2] [L4] **10**
b) What is meant by interest rate parity condition? Illustrate with graphical presentation. [CO3] [L2] **10**
- Q.7 What is the purchasing-power parity (PPP) theory? How PPP is different from Law of one Price? Why do empirical studies support relative PPP over absolute PPP theory? [CO1] [L2] **20**

End Semester Examination, May 2022

B.A. /B.Sc. (Economics) – Fifth Semester

BASIC ECONOMETRICS (BECO-DS-501)

Time: 3 hrs.

Max Marks: **100**

No. of pages: 1

Note: Attempt **FIVE** questions in all; **Q. 1** is **compulsory**. Attempt any **TWO** questions from **PART A** and **TWO** questions from **PART B**. Marks are indicated against each question.

- Q.1 First question will be conceptual covering the entire syllabus and will be compulsory to attempt.
- a) Briefly list out the stages of econometric analysis.
 - b) Give examples of type of data for empirical analysis.
 - c) What do you mean by classical linear regression model?
 - d) What is the sample regression function?
 - e) State the difference between R^2 and Adjusted R^2 .
 - f) What is dummy variable trap?
 - g) State an equation of Lin-log model.
 - h) Does Heteroscedasticity problem related with cross-sectional data? Justify your answer.
 - i) Why the presence of multicollinearity is a problem in estimating regression model?
 - j) Define autocorrelation. [CO1, 2, 3, 4] [L4] **2×10**

PART-A

- Q.2
- a) Define econometric analysis and explain scope and key steps involved in it.
 - b) What is mean by classical linear regression model? What are the assumptions of CLRM? [CO1] [L3] **10×2**
- Q.3
- a) What is the role of the stochastic error term u_i in regression analysis? And explain the reasons for including stochastic error term in the regression model.
 - b) State the different between estimates and estimators. Which one the researcher often use in real-time data analysis and why? [CO2] [L4] **10×2**
- Q.4 Why do we use lagged variables in regression model? Briefly outline the different lagged empirical models and explain the features? [CO3] [L7] **20**

PART-B

- Q.5
- a) What is heteroscedasticity and how it is detected? In presence of heteroscedastic variance, how do you estimate the model? **14**
 - b) State the main causes for:
 - i) Autocorrelation.
 - ii) Multicollinearity in regression model. [CO-3, 4, L2] **3×2**
- Q.6
- a) What is distributed-lag model, and is there any problem with this model? **8**
 - b) Using dummy variable technique, construct and justify the regression model with one quantitative variable and one qualitative variable with two categories. [CO1, 2] [L4] **12**

End Semester Examination, May 2022
B.A. /B.Sc. (Economics) – Fifth Semester
DEVELOPMENT ECONOMICS (BECO-DS-502)

Time: 3 hrs.

Max Marks: **100**

No. of pages: **1**

Note: Attempt **FIVE** questions in all; **Q. 1** is **compulsory**. Attempt any **TWO** questions from **PART A** and **TWO** questions from **PART B**. Marks are indicated against each question.

Q.1 Answer the following questions.

- a) With the help of a diagram, explain the golden rule level of capital per worker under Solow mode.
- b) What is the knife-edge problem in the Harrod-Domar model?
- c) What is Malthusian population trap?
- d) State two obstacles of development for a developing country?
- e) State two consequences of high fertility?
- f) Explain the trickle-down effect with respect to Kuznet Inverted U Hypothesis.
- g) What are income raising factors as per the Leibenstein Critical Minimum Effort theory?
- h) Explain Gini Coefficient.
- i) Mention Rostow's five stages of growth.
- j) Explain the "shortage point" and "commercialization point" as per the Fei-Ranis model.

2×10

PART-A

- Q.2 a) Differentiate between growth and development. Which one is more holistic concept and why? [CO3] [L2, 4] **10**
- b) Differentiate between environment as a necessity good and a luxury good. [CO2] [L2, 4] **10**
- Q.3 a) Explain the concept of poverty line? Discuss the characteristics of the poor and explain the impact of poverty on growth and development. [CO3] [L2] **10**
- b) Discuss if Inequality is good or bad for development? [CO3] [L2] **10**
- Q.4 a) Critically evaluate Leibenstein's Critical Minimum Effort Theory. [CO1] [L4, 5] **10**
- b) Differentiate between balanced and unbalanced growth as strategy of development. [CO1] [L4] **10**

PART-B

- Q.5 Explain the steady state in Solow growth model. Explain what impact increases in savings and population growth will have on growth? [CO3] [L3] **20**
- Q.6 Describe briefly the theory of the demographic transition. At what stage in this transition do most developing countries seem to be? Explain your answer. [CO2] [L2] **20**
- Q.7 State the relation between trade and development? Under what conditions can trade help a nation to achieve its development objectives? Explain the argument of Prebisch and Singer states with their hypothesis for a primary-product exports of a developing

End Semester Examination, May 2022
B.A. (Hons.) (Economics) – Sixth Semester
INDIAN ECONOMY AND POLICY (BECO-DS-601)

Time: 3 hrs.

Max Marks: **100**

No. of pages: **1**

Note: Attempt **FIVE** questions in all; **Q.1 is compulsory**. Attempt any **TWO** questions from **PART-A** and **TWO** questions from **PART-B**. Marks are indicated against each question.

Q.1 Answer the following questions.

- a) What are the major functions of NABARD?
- b) Define 'Demographic dividend'.
- c) What is Bhodan movement?
- d) What is HDI?
- e) How are MSMEs defined in India?
- f) Explain the poverty threshold as defined by Rangarajan Committee.
- g) Explain frictional employment using an example.
- h) Explain what are Basel III norms for banks.
- i) Briefly highlight the major reason for the global financial crisis.
- j) Mention any three major exports and imports of India.

[CO1] [L2, 3] **2×10**

PART-A

Q.2 Explain the major features of Indian economy at the time of Independence. Explain the underlying reasons? [CO1] [L2] **20**

Q.3 Explain the issues and challenges in agriculture marketing in India. Explain the role of Agricultural Produce Market Committee (APMC) and other measures adopted to improve agriculture marketing in India. [CO2] [L4] **20**

Q.4 Explain the importance of MSME's in India and contrast a light on the issues and policies related with industrial sickness. [CO4] [L5] **20**

PART-B

Q.5 Highlight the growth and contribution of the service sector to the Indian economy. What should be the priority of the government with respect to its policy towards services viz. a viz agriculture and manufacturing sectors? [CO2] [L5] **20**

Q.6 What is the current status of India in terms of foreign trade (provide statistics). Elaborate on the salient features of the new trade policy in India? [CO3] [L5] **20**

Q.7 Critically analyze the situation of poverty, inequality and unemployment in India. Examine the policy of the government to address these concerns. [CO4] [L5] **20**

End Semester Examination, May 2022

B.A. (Hons.) Economics – Second Semester

ELEMENTARY STATISTICS (BECO-GE-003)

Time: 3 hrs.

Max Marks: **100**

No. of pages: 2

Note: Attempt **FIVE** questions in all; **Q.1** is **compulsory**. Attempt any **TWO** questions from **PART-A** and **TWO** questions from **PART-B**. Marks are indicated against each question.

Q.1 Answer in brief:

- How mean deviation is calculated?
- Write down the formula for regression coefficient of Y on X.
- What is a scatter diagram?
- Define Paasche's price index number.
- What is meant by mode?
- Define median.
- What is range?
- What is the formula of mean deviation?
- Explain the term dispersion.
- Define Rank correlation.

[CO1,2,3,4][L2,3] **2×10**

PART-A

Q.2 a) The following data gives the distribution of total monthly household expenditure of 122 families of a village. Find the modal monthly expenditure of families.

Expenditure (₹)	100-110	110-120	120-130	130-140	140-150	150-160	160-170	170-180
No of Families	4	6	20	32	33	17	8	2

[CO2] [L3] **10**

b) From the following data compute D_8 and P_{10}

Marks	0-10	10-20	20-30	30-40	40-50	50-60
No of Students	8	10	22	25	10	5

[CO2] [L3] **10**

Q.3 Following is the data of sales figure of a company for 100 days:

Sales (₹1000)	40-50	50-60	60-70	70-80	80-90	90-100
No of days	10	15	25	30	12	8

Compute average deviation and coefficient of average deviation.

[CO2] [L4] **20**

Q.4 a) The following are the prices of shares of a company from Monday to Saturday:

Day	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
Price (₹)	200	210	208	160	220	250

Calculate range and coefficient of range.

[CO3] [L4] **10**

b) The following data relate to the profits of 1000 companies:

Profits (₹Lakhs)	No of Companies	Profits (₹Lakhs)	No of Companies
100-120	15	120-140	25

End Semester Examination, May 2022

PUBLIC BUDGET AND FISCAL POLICY (BECO-ID-004)

Time: 3 hrs.

Max Marks: **100**

No. of pages: 2

Note: Attempt **FIVE** questions in all; **Q. 1** is **compulsory**. Attempt any **TWO** questions from **PART A** and **TWO** questions from **PART B**. Marks are indicated against each question.

Q.1 Answer the following questions:

- a) What are the reasons for child Labour in India?
- b) Discuss the various causes on unemployment.
- c) Mention any 2 challenges that are faced by the Indian Service Sector.
- d) What is disposable income?
- e) Give the meaning of factor income to abroad and factor income from abroad.
- f) State any two objective of a government budget.
- g) What is the difference between capital and revenue income?
- h) Why are plan and non-plan expenditures abolished?
- i) How is primary deficit calculated?
- j) What is minor budgetary head?

2×10

PART-A

- Q.2 a) Discuss the various instruments of Fiscal Policy. Give their effects in Inflation and deflation. Which instrument is most appropriate? **10**
- b) Discuss objectives of fiscal Policy in a growing economy with reference to our country. [CO1] [L2] **10**
- Q.3 a) Distinguish between Revenue and Capital expenditure in a Government budget. Give two examples of each. **10**
- b) Classify the following receipts into revenue receipts and capital receipts. Give reasons in support of your answer. [CO1] [L3] **10**
- i) Recovery of loans.
 - ii) Interest received on loans.
 - iii) Dividend received from public enterprises.
 - iv) Grants from foreign government.
 - v) Tax receipts
- Q.4 a) Elucidate the broad sources of tax and non-tax revenues for the Central Government. **10**
- b) If you were to be appointed as the Finance Minister of India, which taxes would you prefer: direct taxes or indirect taxes and why? [CO2] [L3] **10**

PART-B

- Q.5 a) What is national income explain the various concepts of national income? Briefly explain how are these interrelated? **10**
- b) Providing the reason, explain whether the following will be included in the domestic product of India:
- i) Payment of salaries to its staff by an embassy located in New Delhi.
 - ii) Profits earned by a branch of the foreign bank in India.

CULINARY ART (THEORY) - II (BLA-DS-002)

Time: 3 hrs.

Max Marks: **100**

No. of pages: **1**

Note: Attempt **FIVE** questions in all; **Q.1 is compulsory**. Attempt any **TWO** questions from **PART-A** and **TWO** questions from **PART-B**. Marks are indicated against each question.

Q.1 Write short notes on the following:

- a) Abats.
- b) Rigor-mortis
- c) Laminated pastries.
- d) Fillet.
- e) Croquette.
- f) Beurre.
- g) Gluten
- h) Minestrone.
- i) Goujon.
- j) Docking.

[CO-2] [L-2] **2x10**

PART-A

- Q.2 a) Write the composition of milk. Briefly explain the benefits of homogenized milk. [CO-2] [L-2] **10**
b) Explain step-by-step cheese manufacturing process. List five international cheeses with their uses. [CO-4] [L-3] **10**
- Q.3 a) Draw general layout of a commercial kitchen. [CO-1] [L-2] **10**
b) Draw the layout of service and wash-up area. [CO-3] [L-4] **10**
- Q.4 a) Draw a neat diagram and label the different cuts of Beef or Mutton with french name; explain the uses and approx weight. [CO-2] [L-2] **10**
b) Draw a neat diagram and label the different cuts of Pork or Veal with french name; write the uses and approx weight. [CO-3] [L-2] **10**

PART-B

- Q.5 a) Name and explain ten classical cuts of fish. [CO-3] [L-4] **10**
b) What are the quality points to be checked while selecting fish and shellfish? [CO-2] [L-2] **10**
- Q.6 a) Classify rice and discuss the different methods of cooking rice. [CO-2] [L-2] **10**
b) Write short notes on: i) Short Crust Pastry ii) Choux Pastry. [CO-1] [L-1] **10**
- Q.7 a) Draw a neat diagram and label the different parts of a wheat grain. Name different flours and their uses. [CO-2] [L-3] **10**
b) List the ingredients used in bread making. Explain role of each. [CO-2] [L-2] **10**

MATHEMATICAL ANALYSIS (BLA-DS-004)

Time: 3 hrs.

Max Marks: **100**

No. of pages: **2**

Note: Attempt **FIVE** questions in all; **Q.1 is compulsory**. Attempt any **TWO** questions from **PART-A** and **TWO** questions from **PART-B**. Marks are indicated against each question.

Q.1 Answer in brief:

- a) What is a statement? Answer with example.
- b) What are the difference between simple statements and compound statements? Answer with example.
- c) If x is an even integer, x^2 is an even integer. **True or false**.
- d) Which of the following is a subsets $A = \{1, 2, 5, 6\}$, $B = \{1, 5\}$?
- e) What are the finite and infinite sets? Explain with example.
- f) Show that the division of two rational numbers is rational.
- g) Do the points $(-5, 4)$, $(0, 1)$ and $(0, -3)$ form a triangle?
- h) Find coordinates of the point, which divides the line segment joining the points $(-15, 10)$ and $(20, -12)$, in the ratio 5: 6.
- i) The volume of a sphere with radius r is $V = 4\pi r^3/3$. By what percent will the volume increase if the radius is increased by 5%?
- j) Prove $a^m/a^n = a^{m-n}$ (a and b are positive, m and n are integers). [CO1] [L2] **2×10**

PART-A

Q.2 What is Art for Art's Sake?

- a) What is a conditional statement? What are the four different ways to show the validity of these types of statements? Explain with example. **10**
- b) Write the component statements of the following compound statements and check whether the compound statement is true or false.
 - i) 50 is divisible by 5 or 2.
 - ii) 5 is an odd number and a prime number. [CO2] [L2, 3] **4**
- c) What are the associative and distributive laws in set? Show with Venn diagrams. **6**

- Q.3
- a) Five machines, each costing ₹50,000/-, were purchased for an office. Each machine requires the service of an operator at a salary of ₹10,000/- per month. These machines will replace 9 clerks, three of whom earns ₹5000/- per month, three of whom each earn ₹5000/- per month, and three of whom each earn ₹6000/- per month. How many months will it take to recover the cost of the machines? **5**
 - b) A can file 50 letters in 15 minutes. B can file 60 letters in 10 minutes. How many letters will the two of them file in 5 hours? **5**
 - c) A $11' \times 15'$ room was enlarged to $15' \times 20'$. How many square feet of floor space were added? **5**
 - d) If you reduce the weekly number of working hours by one-fourth and your current weekly income is ₹6000/-, what will be your new weekly income? [CO2] [L3, 4] **5**

- Q.4
- a) What is the difference between contraposition and negation? Answer with examples. **5**
 - b) Check the validity of the statements given below by the contradiction method: If n is

POLITICAL PROCESS IN INDIA (BLA-DS-202)

Time: 3 hrs.

Max Marks: **100**

No. of pages: **1**

Note: Attempt **FIVE** questions in all; **Q.1** is **compulsory**. Attempt any **TWO** questions from **PART-A** and **TWO** questions from **PART-B**. Marks are indicated against each question.

Q.1 Answer in brief:

- a) Do you think India should have a Uniform Civil Code? Give reasons in support of your answer.
- b) Politics of opportunism.
- c) What is Communalism? Give two recent examples of communalism in India.
- d) Role of pressure groups in Indian politics.
- e) Regional Vs National Parties in India.
- f) Coalition Politics.
- g) Characteristics of the Indian Party System.
- h) National-secession campaigns are akin to revolutionary activity, Comment.
- i) Which national-level political party in India was formed to represent the community in the majority i.e., SC, ST, and OBC? What is the current status of the Party?
- j) What is the status of women's representation in India's legislative bodies? **2×10**

PART-A

Q.2 Write a detailed essay on the politics of affirmative action in India. [CO1] [L1, 2, 3] **20**

Q.3 What do you understand by the term 'Secularism'? Discuss the contemporary debates around secularism in India. [CO2] [L1, 2, 3, 4] **20**

Q.4 How can a State treat all religions equally? Would grant an equal number of holidays to each religion help? Or would banning any religious ceremony on public occasions be a way of doing this? [CO3] [L1, 2, 3, 4, 5] **20**

PART-B

Q.5 What are secessionist movements? Secessionist movements in Punjab and North-East States have created an identity crisis in India. What, in your opinion can be the reason for this and suggest some measures to resolve it? [CO4] [L1, 2, 3, 4] **20**

Q.6 Define 'communalism'. Explain how the polarization of the community helps politicians? Describe the problems of communalism in Indian politics. [CO3] [L1, 2, 3, 4] **20**

Q.7 Are the women underrepresented in the Indian Political System? If yes, explain. If No, suggest some remedial measures to close this gender gap in politics. [CO2] [L1, 2, 3, 4, 5, 6] **20**

Max Marks: **100**

No. of pages: **1**

Note: Attempt **FIVE** questions in all; **Q.1 is compulsory**. Attempt any **TWO** questions from **PART-A** and **TWO** questions from **PART-B**. Marks are indicated against each question.

Q.1 Write short notes on:

- a) Right to property.
- b) Basic Structure Doctrine.
- c) Types of Socialization.
- d) Association.
- e) Types of social problem.
- f) Define 'ego defense mechanisms'.
- g) What are psychological disorders? Name any two of them.
- h) Explain water-diamond paradox.
- i) Explain the two main causes of market failure and give an example of each.
- j) Why is productivity important?

2×10

PART-A

Q.2 What do you understand by the terms Liberty and Equality? Is there exists any relation between them? Explain and Give reasons in support of your answer.

[CO1] [L1, 2, 3, 4, 5] **20**

Q.3 Discuss the relationship between the fundamental rights and directive principles of the state policy.

[CO3] [L1, 2, 3, 4, 5] **20**

Q.4 How does heredity and environment impact human behaviour? [CO3] [L3, 4, 5] **20**

PART-B

Q.5 a) What is the difference between microeconomics and macroeconomics? **10**

b) Explain the three economic concepts illustrated by the production possibilities boundary. [CO2] [L2, 3] **10**

Q.6 Discuss the characteristics of social problems. Elaborate the functions of social control in society. [CO3] [L2, 3, 4] **20**

Q.7 What are emotions? State the role of positive emotions in our daily life. [CO3] [L3, 4, 5] **20**

STATISTICAL METHODS (BLA-DS-405)

Time: 3 hrs.

Max Marks: **100**

No. of pages: 2

Note: Attempt **FIVE** questions in all; **Q.1** is **compulsory**. Attempt any **TWO** questions from **PART-A** and **TWO** questions from **PART-B**. Marks are indicated against each question.

Q.1 Answer in brief:

- a) What do you understand by standard deviation?
- b) Five students obtained the following marks in statistics
20, 35, 25, 30, 15.
Find the Range and coefficient of Range.
- c) What is skewness?
- d) Define: Quartiles, Deciles and Percentiles.
- e) Define 'rank correlation'.
- f) What is a factor analysis?
- g) What is an ANCOVA test used for?
- h) Define 'average'.
- i) What is the relation between mean, median and mode?
- j) What is mode in statistics?

2×10

PART-A

- Q.2 a) Discuss different methods of collecting data with the help of suitable examples.
Differentiate between Observation and Interview. [CO1] [L3] **10**
- b) From the following data compute arithmetic mean:

Variable	0-10	10-20	20-30	30-40	40-50	50-60
Frequency	5	10	25	30	20	10

[CO1] [L3] **10**

- Q.3 a) Four coins are tossed simultaneously. What is the probability of getting?

- i) No Head
- ii) No Tail
- iii) Two Heads only

[CO2] [L3] **10**

- b) Explain with examples the

- i) Addition Theorem of Probability .
- ii) Dependent and Independent events.

[CO1] [L2] **5×2**

- Q.4 a) Describe Chi-Square tests of distribution. Discuss the uses and limitations of Chi-Square test. [CO2] [L4] **5**

- b) A certain drug is claimed to be effective in curing colds. In an experiment on 164 people with colds, half of them were given the drug and half of them given sugar pills. The patients reactions to the treatment are recorded in the following table. Test the hypothesis that the drug is no better than sugar pills for curing colds.

	Helped	Harmed	No Effect

Note: Attempt **FIVE** questions in all; **Q.1** is **compulsory**. Attempt any **TWO** questions from **PART-A** and **TWO** questions from **PART-B**. Marks are indicated against each question.

Q.1 This case is about US-based consumer electronics company Apple, Inc's (Apple), known for its ability to come out with path-breaking products. Experts have associated the innovation at Apple with its corporate culture. The case discusses in detail the corporate culture at Apple. At Apple, the work culture was driven by a passion for new products with no end to challenges and opportunities. The case discusses how Apple became the pioneer of the "Work Hard Play Hard" ethic. The corporate culture at Apple was exemplified by its intense work ethics. Though the work environment was relaxed and casual, there was a very strong commitment to deadlines. Analysts summarized the work culture at Apple as "fun, yet demanding".

The case talks about how employees at Apple had to run their own show and work in a challenging and creative environment. Apple adopted a style that was not too formal or hierarchical and a more results-driven approach which worked best for them. The case also focuses on the career opportunities and employability security, compensation, and benefits offered to the employees by the company. The case explains how Apple fostered a culture of secrecy. The demand for absolute secrecy and insistence on control were infused into the company culture right from the beginning. The various dysfunctional aspects of Apple's culture which led the company to the brink of disaster are also discussed.

While some appreciated Apple's culture saying that it valued creative people, others felt that it was dysfunctional from a management standpoint and was largely influenced by its CEO Steve Jobs (Jobs) who had a very quirky style. Experts felt that Apple's obsession with maintaining secrecy could hurt the company and its brand in the new milieu. They felt that the biggest challenge for Apple was to move out from under the shadow of Jobs. The performance of the company in his absence was a key concern for all stakeholders, they said. The case concludes by discussing whether a change in the company's culture is required to remain competitiveness in the long run.

Answer the following questions:

- a) Study the key aspects of Apple's culture.
- b) Explain how culture contributes to the company's success.
- c) Identify the functional and dysfunctional aspects of Apple's culture.
- d) Discuss and debate whether the prevalent culture at Apple needed to change to reflect today's realities and for the long term.
- e) Give a summary of Apple's organizational culture.

[CO3] [L6] **4×5**

PART-A

Q.2 Identify the main functions of Organizational Communication. Contrast between oral, written, and non-verbal communication. [CO2] [L1] **20**

40-50	4
50-60	6
60-70	2
70-80	3

[CO4] [L4] **10**

b) A survey on the heights (in cm) of 50 girls of a class was conducted at a school and the data obtained is given in the form of:

Height (in cm)	120-130	130-140	140-150	150-160	160-170	Total
Number of girls	4	7	12	20	8	50

End Semester Examination, May 2022
M.A. / M. Sc. Applied Psychology – Second Semester
POSITIVE APPROACH TO COUNSELING PSYCHOLOGY (MAP-DS-204)

Time: 3 hrs.

Max Marks: **100**

No. of pages: 1

Note: Attempt **FIVE** questions in all; **Q.1 is compulsory**. Attempt any **TWO** questions from **PART-A** and **TWO** questions from **PART-B**. Marks are indicated against each question.

Q.1 Answer the following questions:

- a) What are the strengths of positive psychology?
- b) Explain positive psychotherapy.
- c) What are some of the positive motivators to become a counselor?
- d) What are the conditions to induce state of flow?
- e) Explain broad and build theory of positive emotions.
- f) Mention past focused methods of savoring.
- g) Define 'hope'.
- h) What is a Job characteristic Model?
- i) What is Steger's model of meaning in life?
- j) Define 'PERMA'.

2x10

PART-A

Q.2 A good life is one that is characterized by complete absorption in what one does. Comment on this statement. [CO-2] [L-3] **20**

Q.3 Comment on empathy building with help of psychological interventions. [CO-3] [L-5] **20**

Q.4 In what way positive psychology can contribute to creating sense of coherence and order in one's life. [CO-3] [L-5] **20**

PART-B

Q.5 Define 'Forgiveness'. Elucidate the various interventions of forgiveness and their efficacy. [CO-4] [L-4] **20**

Q.6 Define value in action model of strength. With help of suitable research examples. Elaborate on some of the strength based interventions. [CO- 2] [L- 3] **20**

Q.7 Define 'positive psychology intervention'. Elaborate on positive psychology therapy models. [CO-4] [L-4] **20**

End Semester Examination, May 2022
M.A. (Economics) – Fourth Semester
TIME SERIES ECONOMETRICS (MECO-DC-002)

Time: 3 hrs.

Max Marks: **100**

No. of pages: 2

Note: Attempt **FIVE** questions in all; **Q.1** is **compulsory**. Attempt any **TWO** questions from **PART-A** and **TWO** questions from **PART-B**. Marks are indicated against each question.

Q.1 Answer in brief:

- a) What is meant by weak stationarity? [CO1] [L1]
- b) Explain spurious regression with an example. [CO2] [L2]
- c) Illustrate the conditions run error correction mechanism? [CO3] [L3]
- d) If the time series model has endogeneity issue, then suggest suitable model with example. [CO4] [L4]
- e) Define random walk model. [CO1] [L1]
- f) If a time series is I(3), how many times would you have to difference it to make it stationary? [CO4] [L5]
- g) Can we apply Box-Jenkins technique to non-stationary time series data? Explain with reasons [CO3] [L4]
- h) Is there any connection between Granger Causality and VAR modeling? [CO4] [L5]
- i) What is the difference between ARCH and ARIMA Model? [CO1] [L2]
- j) "For a random walk stochastic process, the variance is infinite", Do you agree? Why? [CO4] [L6] **2×10**

PART-A

- Q.2 a) How do you determine whether two time series are cointegrated? Describe the properties of cointegrated series. [CO2] [L2] **12**
- b) Can the spurious regression be as cointegrated regression? If yes, illustrate with example. [CO3] [L4] **8**
- Q3 a) What is mean by Autoregressive distributed lag model and states its advantages over other co-integration methods? [CO1] [L1] **10**
- b) Outline the long-run and short-run relations through the steps for ARDL model with suitable example. [CO3] [L2] **10**
- Q.4 a) Suppose that $\{e_t\}$ is zero mean white noise with $var(e_t) = \sigma_e^2$. Consider the deterministic model
- $$Y_t = \beta_0 + \beta_1 t + X_t,$$
- Where $X_t = X_{t-1} + e_t - \theta e_{t-1}$.
- i) Derive an expression for ΔY_t .
 - ii) What is the name of the process identified by $\{\Delta Y_t\}$? Is $\{\Delta Y_t\}$ stationary? [CO3] [L6] **14**
- b) Explain how the sample ACF and PACF can be used to specify the orders p and q of a stationary ARMA(p, q) process? [CO2] [L3] **6**

PART-B

End Semester Examination, May 2022
M.A. (Economics) — Second Semester
ECONOMICS OF HEALTH AND EDUCATION (MECO-DC-004A)

Time: 3 hrs.

Max Marks: **100**

No. of pages: **1**

Note: Attempt **FIVE** questions in all; **Q.1 is compulsory**. Attempt any **TWO** questions from **PART-A** and **TWO** questions from **PART-B**. Marks are indicated against each question.

Q.1 Answer the following questions briefly:

- a) Explain the significance of health in India.
- b) Define 'Market failure'.
- c) Define 'Moral Hazard'.
- d) Explain the concept of adverse selection.
- e) Explain poverty line.
- f) What is the signaling effect of education?
- g) Differentiate between 'equity' and 'equality'.
- h) Differentiate between private and public education.
- i) Define 'IMR and Mortality rate'.
- j) Explain factors effecting the quality of education.

[CO1,4][L4] **2×10**

PART-A

- Q.2 a) Explain the vicious cycle of poverty and poor health, using examples. [CO1] [L2] **10**
b) "Education is a major determinant of economic growth" Comment. [CO1] [L2] **10**
- Q.3 a) Discuss the role of government in financing higher education in India. [CO3] [L2] **10**
b) Explain the different type of health insurances in India and the case of 'missing middle'. [CO2] [L3] **10**
- Q.4 a) What is the meaning of cost-benefit analysis in education? [CO1] [L4] **10**
b) Discuss some measures to improve the quality of school education in India. [CO1] [L2] **10**

PART-B

- Q.5 a) Discuss the theories of discrimination and caste in India. [CO3] [L2] **10**
b) Explain the meaning and scope of economics of education. Why education is considered 'industry'? [CO3] [L2] **10**
- Q.6 a) Write a note on 'Covid19: Impact of Indian health Insurance Industry'. [CO4] [L2] **10**
b) How is NEP 2020 different from National policy on Education 1986? [CO4] [L2] **10**
- Q.7 a) Explain the vision and mission of New Education Policy 2020. [CO4] [L3] **10**
b) Discuss the effect of Covid19 pandemic on mental and physical health. [CO4] [L3] **10**

End Semester Examination, May 2022
M.A. (Economics) – Fourth Semester
CONTEMPORARY ISSUES IN TRADE THEORY (MECO-DC-005)

Time: 3 hrs.

Max Marks: **100**

No. of pages: **1**

Note: Attempt **FIVE** questions in all; **Q.1** is **compulsory**. Attempt any **TWO** questions from **PART-A** and **TWO** questions from **PART-B**. Marks are indicated against each question.

Q.1 Answer in brief:

- a) State assumptions of Mundell-Fleming Model.
- b) Define current account balance.
- c) State difference between comparative and relative advantage theory of trade.
- d) State difference between fixed and flexible exchange rate.
- e) State the assumption of Heckscher-Ohlin theory.
- f) Explain economies of scale.
- g) With the help of a diagram, explain the steady state level of capital per worker under Solow model with depreciation and technological progress. Label the axes and curves properly.
- h) Define the concept of dumping. [CO1, 2, 3, 4] [L4] **2½×8**

PART-A

- Q.2 a) Explain how saving and investment play an important role in determining the level of national income and employment in an economy in the short run and long run. **6**
b) Compare in case of a small open economy the impact of expansion in money supply under flexible rate system with that under fixed exchange rate regime and state in which we can expect increase in level of output and employment. [CO3] [L3] **14**
- Q.3 Describe the nature and likely source of the comparative advantage of the products traded between the regions indicated below. ("South" refers to the developing countries and "North" to the more developed nations.)
a) North ↔ South
b) North ↔ North [CO1] [L2] **10×2**
- Q.4 a) Explain how comparative advantage is based on differences in factor endowments across nations. **12**
b) Explain Leontief paradox. [CO1] [L2] **8**

PART-B

- Q.5 a) Explain the steady state equation of Solow model. Demonstrate the same graphically. [CO2] [L3] **10**
b) Explain how, according to the Solow model, technological progress is the source of sustained increase in output per worker? [CO2] [L3] **10**
- Q.6 How does an economy of scale affect international trade? Explain how trade can erode a firm's economic profit, lowering price and increasing product variety in the case of monopolistic competition. [CO3] [L2] **20**
- Q.7 a) Why is product differentiation, by itself, incapable of explaining intraindustry trade?

End Semester Examination, May 2022
M.A. (Economics) – Fourth Semester
BEHAVIOURAL ECONOMICS (MECO-DS-004)

Time: 3 hrs.

Max Marks: **100**

No. of pages: **1**

Note: Attempt **FIVE** questions in all; **Q.1 is compulsory**. Attempt any **TWO** questions from **PART-A** and **TWO** questions from **PART-B**. Marks are indicated against each question.

Q.1 Answer in brief:

- a) The Cognitive revolution of the 1950s and 1960s led to the rise of behavioural economics. Explain.
- b) Bounded rationality suggests that consumers and producers opt to satisfice rather than to maximize. Explain.
- c) Differentiate between cognitive and affect bias taking example.
- d) Explain ways through which one can overcome biases.
- e) Why will people cooperate under one shot prisoners dilemma?
- f) Explain the importance of happiness in experience in influencing human decisions.
- g) Explain how Nudge is used as a tool of change management by policy makers.
- h) What explains poverty traps?
- i) Explain what is limited attention and salience.
- j) How does winners curse arises in auctions?

[CO1,2,3] [L2,3,4] **2×10**

PART-A

Q.2 According to Neoclassical Economists investors are rational. Behavioural finance states that they are not. Justify your stand by explaining market and investor behaviour supporting your stand. [CO1] [L2, 3] **20**

Q.3 Economists who do not allow for the possibility of social preferences run the risk of committing terrible mistakes, whether they are trying to explain or predict behaviour or to design optimal incentives. In light of this explain how social preferences impact individual decision making behaviour. CO2] [L3] **20**

Q.4 a) Explain the role of heuristics in Auctions taking suitable example. Also explain the winners curse in Auctions. **10**
b) Explain briefly the behavioral finance concepts related to overconfidence, myopic loss aversion and the Equity Premium Puzzle. [CO3] [L3] **10**

PART-B

Q.5 Explain the following using real life examples:

- a) Affect heuristics.
- b) Ambivalence.
- c) Availability bias.
- d) Happiness in experience.
- e) Manipulation.

[CO3] [L2, 5] **4×5**

Q.6 a) Explain how neuro-economics is recently being used to understand the decision making/ choice behavior among individuals? **10**
b) Examine how behavioural economics explain the reasons for rising levels of poverty and inequality? [CO4] [L2, 3] **10**

End Semester Examination, May 2022
M.A./M.Sc. (Economics) — Second Semester
ADVANCED ECONOMIC THEORY AND ANALYSIS (MECO-DS-201A)

Time: 3 hrs.

Max Marks: **100**

No. of pages: **1**

Note: Attempt **FIVE** questions in all; **Q.1 is compulsory**. Attempt any **TWO** questions from **PART-A** and **TWO** questions from **PART-B**. Marks are indicated against each question.

Q.1 Answer the following questions:

- a) Define 'political economy'.
- b) What are welfare benefits for labour in India?
- c) State Arrow's impossibility theorem.
- d) What is derived demand?
- e) Define 'Capitalism'.
- f) Define 'Socialism'.
- g) Define Endogenous variables with examples.
- h) Define 'pareto efficiency'.
- i) What is fiscal policy?
- j) Differentiate between 'direct' and 'indirect' taxes.

2×10

PART-A

Q.2 Differentiate between Marshallian and Walrasian equilibrium in detail. [CO1] [L2] **20**

Q.3 a) Explain the demand for labour in short and long run with the help of diagrams. [CO2] [L2] **10**

b) Explain the supply curve of labour using appropriate diagram. [CO2] [L2] **10**

Q.4 a) Explain the concept of public choice in political process. [CO3] [L3] **10**

b) Discuss the effects of income tax on labour supply. [CO2] [L2] **10**

PART-B

Q.5 Discuss Marxian theory and the concept of value and its surplus. [CO4] [L2] **20**

Q.6 Discuss the economic impact of corruption. How do bribes act as incentive payment? [CO4] [L2] **20**

Q.7 a) Discuss the ricardian equivalence principle and its criticism in detail. [CO3] [L3] **10**

b) Discuss economic theory of democracy and agency models. [CO3] [L3] **10**

End Semester Examination, May 2022
M.A. (Economics) — Second Semester
THEORY OF INTERNATIONAL ECONOMICS (MECO-DS-202)

Time: 3 hrs.

Max Marks: **100**

No. of pages: 2

Note: Attempt **FIVE** questions in all; **Q.1 is compulsory**. Attempt any **TWO** questions from **PART-A** and **TWO** questions from **PART-B**. Marks are indicated against each question.

Q.1 Answer in brief:

- a) Comment on the nature and scope of International Economics. [CO1] [L2]
- b) What was the basis of trade according to Adam Smith? [CO2] [L3]
- c) Explain gains from trade. [CO1] [L2]
- d) What is resource endowment in International Economics? [CO1] [L2]
- e) What complexity in factor transition and endowment defines International Economics? [CO3] [L3]
- f) What are the effect of exchange rates changes? How its affect current account balance? [CO3] [L3]
- g) How is the current account related to national savings? [CO3] [L4]
- h) Why do nations subsidize exports? Do you think export subsidy would promote export for the small economy? and why? [CO3] [L5]
- i) Do you agree with the view that inflation and interest rate are positively correlated? [CO4] [L5]
- j) State the short-run and long-run effect of Infant Industry Protection argument. [CO4] [L6] **2×10**

PART-A

Q.2 "The international trade effects of growth result from the fact that such growth typically has a bias." Analyze the statement and explain what creates such bias in growth. [CO1] [L5] **20**

Q.3 a) Elaborate the conditions, contexts in which neoclassical trade in International Economics Theory is explained. [CO3, L5] **12**
b) What is comparative advantage and factor endowment theory of trade? [CO1, L2] **8**

Q.4 a) Explain Trade Policy and describe its objectives. [CO2] [L2] **10**
b) Distinguish between different types of trade policy measures. What are the effects of each? [CO3] [L5] **10**

PART-B

Q.5 a) What is meant by the Bretton Woods system and how were exchange rates determined under the Bretton Woods system? Under what conditions were nations allowed to change their exchange rates? [CO3] [L2] **12**
b) What are the purposes of the Bretton Woods Institutions? [CO2] [L1] **8**

Q.6 Do you think changes in interest rates affect the total money supply in an economy? Suppose a market is initially at a higher interest rate. Explain, using the demand and supply mechanism, how interest rates tend to settle at the equilibrium? [CO4] [L5] **20**

End Semester Examination, May 2022
M.A. (Economics) – Second Semester
PUBLIC ECONOMICS AND POLICIES (MECO-DS-203A)

Time: 3 hrs.

Max Marks: **100**

No. of pages: **1**

Note: Attempt **FIVE** questions in all; **Q.1 is compulsory**. Attempt any **TWO** questions from **PART-A** and **TWO** questions from **PART-B**. Marks are indicated against each question.

Q.1 Answer the following questions:

- a) What is the main objective of a capitalistic economy?
- b) Why Lindahl model may be preferred over Majority Voting?
- c) When $E_s > E_d$, who bears more tax incidence?
- d) For publicly provided public goods is consumption non-rival.
- e) What is the condition for achieving maximum social advantage?
- f) What do we mean by the impact of a tax?
- g) Is tax a quid-pro-quo arrangement between the tax payer and the Government?
- h) What are the major sources of revenue for the Government in India?
- i) "More people in the society are getting vaccinated" is an example of what type of externality.
- j) What does Samuelson model say about provisioning of public goods?

[CO1][L2] **2x10**

PART-A

Q.2 Write short notes on:

- a) Efficiency versus equity trade-off.
- b) Role of Government in a mixed economy.
- c) Median voter theorem.
- d) Pure theory of public expenditure.

[CO2][L3] **4x5**

Q.3 a) What is the externality of an individual driving on a congested road? How should toll be collected in a such condition? [CO2][L3] **10**

b) Why might preferences for local parks and public transport not single-peaked? [CO2][L3] **10**

Q.4 a) It has been argued that Government should limit rationing to 'healthy' foods only. Discuss the merits of this proposal. Will individual consumption decision be affected by it? [CO1][L4] **10**

b) Explain Downs model of public choice. [CO1][L4] **10**

PART-B

Q.5 a) Explain the Ramsey model of direct taxation with suitable assumptions.

[CO3][L3] **10**

b) What is GST? What are the benefits of it?

[CO3][L3] **10**

Q.6 a) Distinguish between impact and incidence of taxation. What are the qualities of a good tax system? [CO3][L4] **10**

b) What are the main principles of taxation? [CO3][L4] **10**

Q.7 a) Assess the role of Public debt in the economic development of India. [CO4][L3] **10**

End Semester Examination, May 2022

ENVIRONMENT AND DEVELOPMENT ECONOMICS (MECO-DS-204)

Time: 3 hrs.

Max Marks: **100**

No. of pages: **1**

Note: Attempt **FIVE** questions in all; **Q.1 is compulsory**. Attempt any **TWO** questions from **PART-A** and **TWO** questions from **PART-B**. Marks are indicated against each question.

Q.1 Answer in brief:

- a) What is a throughput's effect on climate science of Earth?
- b) What is an economic throughput and how it is connected to climate science?
- c) Why it is important to see bio-economy rather than economy from a tradable pollution permits perspective?
- d) How contexts are important to North South Trade and Pollution Issues?
- e) What is a strong sustainability condition for preservation to grow in a developing country?
- f) What is weak sustainability condition for preservation to not grow in a developing country?
- g) Why neoclassical function is not adequate to understand strong sustainability, development and ecological dividends in a developing country?
- h) How valuation is different from accounting?
- i) How diverse viewpoints are not internalized in classical approach of growth and pollution between transnational countries?
- j) Why precautionary approach is important for climate action?

[CO1,2,3,4,][L2,3] **2×10**

PART-A

Q.2 Explain the role of carbon markets and the process of its operation. [CO1, 2] [L1, 2] **20**

Q.3 What are the partial and general equilibrium impacts of trade, pollution? Explain in detail. [CO1, 2] [L1, 2] **20**

Q.4 What is the difference between use and non-use values? Explain in detail. [CO1, 2, 3] [L1, 2, 3] **20**

PART-B

Q.5 What are the areas of connection between Environmental Kuznets Curve, Development, and Externality Based Market Failures? Explain in detail. [CO1, 2, 3, 4] [L1, 2, 3, 4] **20**

Q.6 What is the basis for introducing tradable pollution permits and when they can be successful or when they can fail? Explain in detail. [CO5, 6] [L5, 6] **20**

Q.7 Where is the role of a zero sum game in explaining transboundary pollution? Explain in detail. [CO5, 6] [L5, 6] **20**

End Semester Examination, May 2022
M.A. (Economics) — Second Semester
THEORY OF BASIC ECONOMETRICS (MECO-DS-205A)

Time: 3 hrs.

Max Marks: **100**

No. of pages: **1**

Note: Attempt **FIVE** questions in all; **Q.1 is compulsory**. Attempt any **TWO** questions from **PART-A** and **TWO** questions from **PART-B**. Marks are indicated against each question.

Q.1 Answer in brief:

- a) State how we do econometric analysis.
- b) Give examples of type of data for empirical analysis.
- c) State if panel and pooled data are same. Give reasons.
- d) What do you mean by classical linear regression model?
- e) Define the 'population regression function'.
- f) What is dummy variable trap?
- g) State an equation of log-linear model.
- h) Is there any difference between estimators and estimates?
- i) What is the necessary condition for an identification problem?
- j) Define 'autocorrelation'.

[CO1, 2, 3, 4] [L4] **2×10**

PART-A

- Q.2 a) Define 'econometric analysis' and explain scope and key steps involved in it. **12**
b) Differentiate Time series, cross sectional and Panel Data. [CO1] [L2] **8**
- Q.3 a) What is mean by classical linear regression model? **6**
b) State the assumptions of CLRM. [CO2] [L3] **14**
- Q.4 What is Multicollinearity problem means? How do you detect the multicollinearity problem and suggests the way to resolve it? [CO2] [L3] **20**

PART-B

- Q.5 a) Develop a simultaneous-equation model for the supply and demand function. Specify the endogenous and exogenous/pre-determined variable in the model. **14**
b) What is mean by simultaneous equation bias? [CO3] [L4] **6**
- Q.6 a) How do we estimate qualitative response regression models? **6**
b) Can we use OLS models for the qualitative regression model? Illustrate with an example. [CO3] [L4] **14**
- Q.7 Why do we use lagged variables in regression model? Outline the different lagged empirical models and explain the features. [CO3] [L7] **20**

INDIAN ECONOMIC ISSUES AND POLICIES (MECO-DS-401)

Time: 3 hrs.

Max Marks: **100**

No. of pages: **1**

Note: Attempt **FIVE** questions in all; **Q.1 is compulsory**. Attempt any **TWO** questions from **PART-A** and **TWO** questions from **PART-B**. Marks are indicated against each question.

Q.1 Answer in brief:

- a) Define land reforms and the importance of land reforms. [CO2] [L2]
- b) Define green revolution and examine its impact on India's productivity. [CO1] [L2]
- c) Define 'industrial sickness'. [CO2] [L3]
- d) Briefly mention any 4 UN-SDGs. [CO3] [L4]
- e) Explain the contribution of various sectors to the GDP and the occupation structure sector wise. [CO1] [L5]
- f) Types of Unemployment. [CO2] [L3]
- g) Difference between Social and Physical Infrastructure. [CO4] [L4]
- h) What are the characteristics of Industrial labor in India? [CO4] [L5]
- i) Explain briefly the impact of migration on the economies of their origin. [CO2] [L4]
- j) National Commission on labor. [CO3] [L2] **2×10**

PART-A

- Q.2 Explain the development strategy adopted by the planning commission in India for each of the five year plans post independence. [CO1] [L4] **20**
- Q.3 Examine the importance of MSME's in India and contrast a light on the issues and policies related with industrial sickness. [CO1, 3] [L4] **20**
- Q.4 a) Explain the population policy of India. Will India be able to harness its demographic dividend to its advantage? [CO3] [L2, 5] **10**
b) Critically examine the new rural employment guarantee scheme and new agricultural policy. [CO4] [L5] **10**

PART-B

- Q.5 "India's unemployment problem is primarily a problem of open unemployment." Discuss. Briefly review the policies and programs undertaken by the government to solve the problem. [CO3] [L5] **20**
- Q.6 "The service sector is not only the dominant sector in India's GDP but has also attracted significant foreign investment" analyze the statement. [CO4] [L4] **20**
- Q.7 a) What are the chief causes of child labor in India? Comment. [CO3] [L2] **10**
b) Critically comment the growth of saving and Investment in India. [CO4] [L5] **10**

End Semester Examination, May 2022
M.A. (Economics) – Fourth Semester
GLOBAL ECONOMIC AND MONETARY SYSTEM (MECO-DS-402)

Time: 3 hrs.

Max Marks: **100**

No. of pages: **1**

Note: Attempt **FIVE** questions in all; **Q.1 is compulsory**. Attempt any **TWO** questions from **PART-A** and **TWO** questions from **PART-B**. Marks are indicated against each question.

Q.1 Answer in brief:

- a) Comment on the different FDI Routes. [CO3] [L2]
- b) Which are the indicators of openness of Indian economy? [CO2] [L3]
- c) Differentiate between direct and indirect quote. [CO3] [L4]
- d) Explain the economic advantages of SWAP contracts. [CO2] [L2]
- e) Who are Arbitrageurs and what is their role in international market? [CO3] [L2]
- f) What is FEDAI and what role does it play in Indian Foreign Exchange Market? [CO1] [L3]
- g) Explain the socio economic implication of mergers and acquisitions. [CO4] [L4]
- h) State which are the institutions comprising the World Bank Group, briefly mentioning their characteristics. [CO4] [L3]
- i) Explain the Role of European Investment Bank. [CO3] [L2]
- j) $1\text{US\$} = \text{₹}42.6250/6500$. Analyze that whether this is a direct or indirect quote and convert it into its inverse quote. [CO4] [L5] **2×10**

PART-A

- Q.2 Do you agree that floating exchange rate regime is a better option than the fixed exchange rate regime? Justify. [CO1] [L5] **20**
- Q.3 Trace the history of foreign exchange regulation in India. State the basic objective of Foreign Exchange Act. [CO2] [L3] **20**
- Q.4 a) Explain with suitable examples hedging in a forward market. [CO2] [L2] **10**
b) Which are the prime indicators reflecting openness of country to a foreign market? [CO1] [L2] **10**

PART-B

- Q.5 Explain the benefits of FDI to the host and to home countries. [CO1] [L2] **20**
- Q.6 What are the benefits of International investment from the view point of optimization of investment portfolio? [CO4] [L3] **20**
- Q.7 The following spot rate between Rupees and Dollar given is Spot (₹/\$): 40.1496.
a) Calculate the forward rate in terms of (₹/\$) if dollar is expected to depreciate by 4% in next 2 months. [CO5] [L4] **10**
b) Calculate Forward Rate between (₹/\$) if rupee is expected to appreciate by 3% in next 6 months. [CO5] [L4] **10**

End Semester Examination, May 2022
M.A./M.Sc. (Applied Psychology) – Fourth Semester
INTERVENTIONS IN COUNSELLING (MPSY-DS-401)

Time: 3 hrs.

Max Marks: **100**

No. of pages: **1**

Note: Attempt **FIVE** questions in all; **Q.1** is **compulsory**. Attempt any **TWO** questions from **PART-A** and **TWO** questions from **PART-B**. Marks are indicated against each question.

Q.1 Answer the following questions:

- a) Define 'psychotherapy'.
- b) Discuss the role of identified goals in building working alliance.
- c) Discuss the nature of prevention in counseling.
- d) Discuss the pros and cons of introducing technology in prevention.
- e) Elaborate on the positive communication techniques can be utilized in counseling and prevention,
- f) Discuss the techniques for the prevention of HIV.
- g) Elaborate on the qualities of an individual high on hardiness.
- h) Discuss the techniques that can help a child with mental retardation.

2½×8

PART-A

- Q.2 Discuss in detail the various categories of counselling intervention and how they are manifested in client's problems. [CO1] [L3] **20**
- Q.3 Elaborate on Evidence – based prevention and intervention programs. [CO2] [L4] **20**
- Q.4 Elaborate on the techniques that can be utilized for life skill training. [CO3] [L4] **20**

PART-B

- Q.5 Elaborate on the prevention and remedial measures for conduct disorder. [CO4] [L4] **20**
- Q.6 Explain the 'Broaden Build' theory. Discuss in detail the techniques to promote resilience. [CO2] [L3] **20**
- Q.7 Discuss the nature of assertiveness training. What are the various methodologies that can be employed for the same? [CO3] [L3] **20**

End Semester Examination, May 2022
M.A./M.Sc. Applied Psychology – Fourth Semester
EMOTIONS AND MOTIVATION (MPSY-DS-402)

Time: 3 hrs.

Max Marks: **100**

No. of pages: **1**

Note: Attempt **FIVE** questions in all; **Q.1 is compulsory**. Attempt any **TWO** questions from **PART-A** and **TWO** questions from **PART-B**. Marks are indicated against each question.

Q.1 Answer in brief:

- a) What are emotions?
- b) What is expressive behaviour in the context of emotions?
- c) What is Bodily Arousal in the context of emotions?
- d) What is conscious experience in the context of emotions?
- e) What are the sub parts of ANS?
- f) What is Motivation?
- g) What is Self-Actualization?
- h) What are higher order needs?
- i) What are lower order needs?
- j) What is MBO?

[CO-ALL] [L1] **2×10**

PART-A

Q.2 Using examples, explain the factors that influence initial attraction. [CO2] [L2] **20**

Q.3 Are there universally recognized emotions? Discuss in detail. [CO2] [L3] **20**

Q.4 Using a table, explain the role of the Autonomic Nervous System in the context of Emotions. [CO3] [L2] **20**

PART-B

Q.5 Explain and discuss the ways to build Self Efficacy. [CO2] [L3] **20**

Q.6 "McClelland's theory of Needs applies well to the Indian context." Elaborate. [CO3] [L4] **20**

Q.7 Discuss any two trends or recent research conducted in the application of psychology to motivation. [CO4] [L4] **20**

End Semester Examination, May 2022

Time: 3 hrs.

Max Marks: **100**

No. of pages: 2

Note: Attempt **FIVE** questions in all; **Q.1 is compulsory**. Attempt any **TWO** questions from **PART-A** and **TWO** questions from **PART-B**. Marks are indicated against each question.

Q.1 Answer the following questions briefly:

- a) Discuss the uses of vedic maths.
- b) Write the steps for multiplication of complementary numbers like 63×27
- c) Find the Value of 103×106 (mention the steps).
- d) Find:
 - i) $\sqrt{36}$
 - ii) $\sqrt{121}$
- e) Find the sum of $7245 + 9281 + 6039 + 2579 + 834$
- f) Discuss nikhilam method of subtraction.
- g) Explain the steps of binding cubes in vedic maths.
- h) Covert vinculum no to normal form $12\overline{62}$.
- i) Find the value of $47+91+19+12$.
- j) Explain mixed base method of multiplication.

2×10

PART-A

Q.2 Add the following by dot method (dropping ten)

- a) $2 + 3 + 4 + 9 + 8 + 2 + 7 + 3 + 6 + 2$
- b) $12 + 13 + 14 + 18 + 11 + 14$
- c) $123 + 321 + 424 + 521 + 125 + 131$
- d) $1234 + 2345 + 3456 + 2143 + 8123$

[CO1] [L3] **5×4**

Q.3 a) Subtract from left to right:

- i) $86 - 27$
- ii) $2439642 - 1723412$
- iii) $93 - 36$
- iv) $139264 - 110634$

[CO-2][L-3] **10**

b) Subtract (base method):

- i) $1000 - 666$
- ii) $10000 - 729$
- iii) $100 - 54$
- iv) $1000 - 982$

[CO-2][L-3] **10**

Q.4 a) Multiply: i) 13×14 vi) 115×116 iii) 202×209 iv) 14×16 v) 12×117

b) Multiply: i) 94×98 ii) 96×95 iii) 6×9 iv) 88×92 v) 96×97 [CO2] [L4] **10×2**

PART-B

Q.5 a) What is vinculum numbers? Convert the below number from vinculum back to normal form.

$25\overline{34}$, $37\overline{46}$, $2\overline{602}$, $12\overline{34}$, $68\overline{9}$

[CO3] [L5] **10**

b) Write the steps to convert the number from positive to vinculum form and from
