In practice, the university conducts many health awareness, outreach programmes and projects, for the neighbourhood communities. Faculty of Dental Sciences and the Faculty of Allied Health Sciences conduct dental care, nutrition and physiotherapy health camps through mobile clinics and onsite camps which are managed by students and faculty members. Awareness programmes on health issues including mental health, and creating awareness about usage of sanitary napkins by girls and distributing the same in rural areas etc. are conducted on a regular basis both within and outside the precincts of the university. Blood Donation Camps are a regular feature, with around **9079** units of blood collected during recent years.

- ✓ As evidence for metric 3.3.2, details of the recent health camps as organized by MRIIRS and its ISR arm Dr. O. P. Bhalla Foundation have been provided along with the pictures.
