

One-day excursion to New Delhi's Pragati Maidan for the 7th Smart Cities India expo

The Department of Civil Engineering organized a one-day visit to 7th Smart Cities India expo at Pragati Maidan, New Delhi on 24th March 2022. Students had an intensive interaction with company/ Govt Organization representatives for more than 4 hours which generated great enthusiasm and interest among them. Many companies offered their services to the department for any technical assistance in the future. The students were impressed by the schemes, innovative products and services offered and their likely applications in building a city digital and smart. They were glad to understand the global perspective on sustainable smart cities and vision for development.
