1. INTRODUCTION

Examination function in the education system of a Higher Education Institute holds a pivotal position. It's the much avowed objective of any HEI to ensure that the students during the tenure of their education acquire the Graduate Attributes (GAs), Programme outcomes (POs), Programme Educational Objectives (PEOs), Programme Specific outcomes (PSOs) and Course outcomes (COs) of different courses. These outcomes have to be suitably aligned and measured in an Outcome Based Education. Evaluation through examinations- both formative and summative provides the necessary prime mover to accomplish this all- important task. Therefore a sound, robust, transparent and technology-enabled examination system with high reliability and fidelity has to be a *sine quo non* in an HEI for it to prosper and inspire confidence in its stakeholders.

Adhering to the above, MRIIRS have in place a time-tested examination system in place which has incorporated the aforesaid basic tenets. We continuously continue to hold consultative meetings for ushering in reforms to bring about accretion to efficacy and integrity of our examination system. Technology and various psychometric techniques are leveraged to enhance the quality level of the system.

2. ORGANIZATION STRUCTURE OF THE EXAMINATION BRANCH

The operations of the Examination Branch are granularized into three broad areas: Conduct, Result and Award Management. Each one of these verticals is looked after by a dedicated Deputy Superintendent / Superintendent. All functions germane to question paper settings are included in the Conduct vertical. Result and Award Management are the other two verticals. These functionaries report to Dy. COE and COE. PVC of the University guides and oversees the Branch with COE at the helm of affairs. As of now, all the functionaries are very well experienced with an average tenure of over 6 years at this University.

THE PROPOSED ORGANIZATION STRUCTURE OF THE EXAMINATION BRANCH IS DEPICTED BELOW:

- **Result Preparation:**
  - i) Subsequent to the receipt of sessional and end semester marks from the faculty, final results were prepared by deploying an in-house developed software.
  - ii) The result preparation comprises of two level rationalization/moderation. In the first constituent step, for any one programme, global overage of marks of all courses involved was

computed for theory papers only. Marks of all courses were rationalized with respect to this global overage. This ensures that any deviation because of varying degrees of difficulty of the question paper, if any, are smoothened. In the second level of moderation, frequency distribution of marks and grades was first worked out, then using the principle of relative grading, threshold levels of different grades were suitably modified, if needed. This entire process was executed by a committee comprising: respective Deans, COE and HODs.

iii) After this the data was transmitted to another constituent automated unit for preparation of Grade Cards, transcript and degrees with security features and photographs affixed.

- **Result Declaration:** The results for all the programmes had been declared as per procedure within stipulated time, vide notification issued on 23.01.2019 (Dec. 2018) & 07.06.2019 (May, 2019).
